

## Interior Film - a room revival solution

For an innovative and creative way to revive an outdated reception area, office, boardroom or a shop, Interior Film from David Clouting is the perfect solution.

Manufactured by LG Hausys, Interior Film is a self-adhesive, decorative film especially designed for the commercial and shop fitting sectors where speed of refurbishment is often time critical. It's quick and easy to install and rooms can literally be transformed overnight with minimum disruption.

Interior Film can be applied to almost any substrate including: wood, metals, plaster board, plastics, painted surfaces and melamine. This enables interior surfaces such as walls, doors, furniture, skirting and architrave to be attractively and quickly transformed.

It has excellent flexibility and adhesion properties which allows for a perfect finish even to curved areas and complex shapes. Interior Film is fire rated, easy to clean and maintain, is hardwearing and remains stable when exposed to heat, humidity or low temperatures.

Air free technology enables Interior Film to be easily applied to give a bubble free professional finish.

Interior Film is exclusively available from David Clouting in a range of designs and finishes including: Exotic woods, Leather effect, Textured metals and Natural stone.

Interior Film attracted considerable interest from Shop Fitters at W12

## DECOTILE - a luxury vinyl floor tile inspired by nature

DECOTILE manufactured by LG Hausys and available in the UK from David Clouting is a superb range of luxury vinyl floor tiles available in natural wood, stone, marble or a slate finish and ideal for commercial, retail or domestic applications.

Combined with the durability, longevity and cost-effectiveness of vinyl and with warranties from 10 to 20 years depending upon usage requirements, DECOTILE uniquely creates the feeling of walking on

real natural materials but with the comfort and warmth of luxury vinyl flooring.

DECOTILE is available in a range of sizes and formats including 'planks' for a realistic wood effect floor.
